

It's obvious where this fire started, but why?

A fire like this can result from:

- faulty equipment
 - electrical issues
 - improper installation
 - homeowner neglect
 - numerous other causes
-
- ISE has the experts who can determine initial fire origin and cause without any doubt.
 - With our multi-disciplinary approach, our qualified experts can definitively isolate cause of damage.
 - Claims are settled quickly and fairly.
 - Our inspectors are located throughout New England.
 - They will arrive on the scene fast to gather evidence and conduct a proper investigation.

ISE is staffed with Certified Fire and Explosion Investigators (CFEI) who are also licensed mechanical and electrical engineers. Call ISE to investigate your next fire loss.

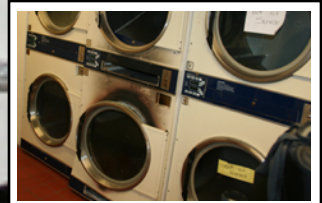

Engineering, Inc.
The answer is in the engineering.
